

# Suicide Note

Ektomorf

I just hate this life  
I'm buried alive  
God he's ripped apart my soul  
Twisted shadows, creeping doubt  
Left behind, can't scream it out  
Fighting battles, open scars

And then anger rises  
Upon my darkness  
Filling up the empty void  
Lost in a maze I can't find my way  
They don't understand me  
Fuck you all

And I know you feel the pain  
The pain that makes me real  
The sorrow in your eyes  
It's hard to say goodbye

Why can't you see  
My scars are bleeding  
And you keep laughing at me pain  
Funerals, a hollow soul  
I'm falling in this fucking hole  
I can't take it anymore

Every day is a fight  
I'm losing again  
I'm fucked up, I'm trapped in this hell  
Grief like a serpent, my love turns to ashes  
How the hell I got here I don't know

And I know you feel the pain  
The pain that makes me real  
The sorrow in your eyes  
It's hard to say goodbye

And I know you feel the pain  
The pain that makes me real  
The sorrow in your eyes  
It's hard to say goodbye

Can you hear me?  
See me and help me!  
Can you hear me?  
See me and help me!  
Can you hear me?  
See me and help me!  
Can you hear me?  
See me and help me!
