

# You and Me

Ektomorf

I say something to your face today  
Today before it's too late  
Don't judge me for your own mistakes  
The mistakes you make  
I was never good enough, never good enough for you  
No matter what I do  
It's time for me to draw my lines  
It's over  
Fuck you

All my patience is gone for you  
All my respect has died for you

This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me

I was there for you every day  
I was there for you every way  
And I saved you from yourself  
I wish so hard I didn't stay  
When I was so fucked up and lost in hell  
You just turned your back on me  
You took my life and watched me bleed

This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me

This is for you  
So mark my words  
Cause you haven't learned anything right now  
Leave, get the fuck away, you're full of shit  
Your life is a joke  
Why can't you see  
My life is better without you  
Leave  
Burn  
Die

This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me  
This is the end for you and me  
The end for you and me

Just fucking die!
