

Kiss of Death

El Perro del Mar

Grief don't just grow away, grow away
It's engraved in me, I tell myself
I tell myself to not give in
To keep it close like a memory
And not all things leave
I tell myself to tell myself

I'm living with the kiss of death
I'm giving despite the kiss of death
I'm not living like it is a threat
The kiss of death

Tears fall lesser now, lesser now
The guilt it leaves, I can't live with it
I can't live for you
It's the love that remains
So I tell myself, I tell myself

I'm living with the kiss of death
I'm giving despite the kiss of death
I'm not living like it is a threat
The kiss of death

I'm living with the kiss of death
I'm giving despite the kiss of death
I'm not living like it is a threat
The kiss of death
