

Sad

El Perro del Mar

I'm sad all day long
And at night I think about
Being sad all day long
What's the use hanging around?

I'm sad all day long
And at night comes the lie
Being sad all day long
What's the use talkin' about it?

I've got my back against the wall
It don't really matter to me
I've got my back against the wall
It don't really matter to me

I've got my back up against the wall
It don't really matter to me
I've got my back up against the wall
It don't really matter to me
I've got my back up against the wall
It don't really matter to me
I've got my back up against the wall
It don't really matter to me
