

## Deja Vu

Elaine

Couldn't find need a reason why I couldn't leave ya  
Should've walked away from the start  
And I wish that I knew then what I know now  
That you just a man after all

Guess I was tryna save us, hoping it'd get better  
Seeing that we made it this far  
But I know what I know now, it's not like before  
And you're just a man after all

But we keep on runnin' around in circles doin' the same thing  
And I know you'll never change but I'll keep coming back to you (back to ya)

Look what it is  
Deja vu  
If it ain't me, tell me who  
Day or night you can come through  
And I'm just waiting on you to make your move

It ain't right but I want you  
Let's run it back, rendezvous  
You say I'm toxic, baby, you too  
And don't get mad at me  
I get it from you

Oh, how I love to see you leave me dry  
Cause that's the only thing you know how to do, right  
I'm not expecting much from you, I'm good on my own  
But it's only you that gets me in that zone

But we keep on runnin' around in circles doin' the same thing  
And I know you'll never change but I'll keep coming back to you (back to ya)

Look what it is  
Deja vu  
If it ain't me, tell me who  
Day or night you can come through  
And I'm just waiting on you to make your move

It ain't right but I want you  
Let's run it back, rendezvous  
You say I'm toxic, baby, you too  
And don't get mad at me  
I get it from you

Deja  
Deja vu...
