

Lost & Found

Elaine

Is it my fault that I love you so bad
Is it my fault I keep turning back
To come and save you, no
Am I wrong for thinking we would make it through
Tryna escape but I fail to fall back
I gotta say this to you, no

I blame it on my sanity I was weak
I blame it on my misery I was hurt
This you know cause I told you this before
I blame it on every part of me that I was hiding
And I'll I wear it on my sleeve cause I ain't hiding
No more, no

Screaming glory glory I'm free
I just needed you how could you not see?
Screaming glory glory I'm free
I just needed you how could you not see?
See right through me
See right through me

See this what happens what I think about you
I get fucked up by my feelings for you yes I do
And this what happens when I think about you
I get fucked up by what we've could've been
What we could've been oh

Screaming glory glory I'm free
I just needed you how could you not see?
Screaming glory glory I'm free
I just needed you how could you not see?
See right through me
See right through me

And this what happens when I think about you
See right through me
I get fucked up by my feelings for you yes I do
