

## Relapsing (Freestyle)

Elaine

I folded I know I did  
Said we were done over with  
How do I explain to all of my friends?  
Yeah I forgave you but what about them?

You get your way  
You know how to get your way with me  
It's gotta be fate  
That's the only thing that brought you back to me  
I'm in your bed when I've already walked away and said goodbye in my head

Oh here we go again  
Making all the same mistakes again  
Waiting up for you 'til 3am not again no  
Said I'd never let you in not again  
Can't believe I let you hit it that's a sin  
You're a trigger can't let you take me there again  
Every time we fight nobody wins no  
Not again no

You know I'd never play about you  
But I cannot say the same about you  
Like the time you said you needed me and I pulled up to your mamas crib  
And found you in the bathroom tub and saved you  
How can you say that I don't care about you  
Now you know you're just projecting  
And I know that I'm the strong one  
But I still need your need protection  
Baby I do

You get your way  
You know how to get your way with me  
It's gotta be fate  
That's the only thing that brought you back to me  
I'm in your bed when I've already walked away and said goodbye in my head

Oh here we go again  
Making all the same mistakes again  
Waiting up for you 'til 3am not again no  
Said I'd never let you in not again can't believe I let you hit it that's a sin  
You're a trigger can't let you take me there again  
Every time we fight nobody wins no (nobody wins)  
Not again no  
Nobody wins again

I can't win again  
Here we go again  
Fucking up again  
Crazy  
To making love again  
I'm cussing you out again  
I cannot pretend  
You're driving me crazy  
Round and round we go uh  
Round and round we go uh  
Round and round we go uh

I can't forgive  
Somebody who goes around hurting me night and day I do not deserve  
I am not safe  
My mama don't like you  
And I cannot blame her  
I been fighting your demons  
But now they're all yours  
Round and round we go  
Round and round we go
