

## The Good Day

Elbow

Did you feel did you feel a little brighter today  
Come along now you've come along way  
Ooh a good day could keep you sparkling awhile  
And I'd lose the use of my legs just to see you smile

Oh a good day  
Is what we have here

Oh a good day  
Is what we have here

Did you feel did you feel a little brighter today

Come along now you've come along way  
Ooh a good day could keep you sparkling awhile  
And I'd lose the use of my legs just to see you smile

Oh a good day  
Is what we have here

A good day  
One good day  
Is what we have here
