Elder Island

Fate, it's ended our rule
Ah, hate, it's branded us fools (and me, and me, and me)
Wait, play it by the book
Ah, hush, you want it, don't you?

Absolute

Ooh, solutions for you, for your living room
So we can board over and live a new
Free from limitations, adjust your relations
And we will be totally taken with you

It's all over the news, you can chose
Soft control or phenomenal rule

It could be by degrees
Absolute, it could be
Absolute
You want it don't
You want it don't you
You want it don't
Absolute
It's all over the news
You can choose
You want it don't
You want it don't you
Soft control or phenomenal rule
It could be by degrees
You want it don't
You want it don't you
Absolute
You want it don't
You want it don't you
It to be
You want it don't
Absolute
