

Hotel Beds

Elder Island

All the sordid things you'd like to do
Take the hand that leads you bite the hand that feeds you find
a new

All the sordid things you'd like to do
Take the hand that leads you bite the hand that feeds you find
a new

Get a wriggle on with what you doing but don't take too long with the details get yourself in line
I've got plans enough for the both of us
Wanna celebrate the little things so are you gonna tell me where it is you want to be in time
I've got plans enough for the both of us

The scent of your hair to the taste on your lips
The scent of your hair to the taste on your lips
It seems so hard to find the time for all of those things in mind always ready for me to jump the line if I turned them would you un-tie

I drive for news no drive for two would you run if I told you to?

There'll be days it'll long catch up to you
Would you come if I call for you
Would you come if I call for you
Would you come if I call for you
Would you come if I call for you
Would you come if I call for you

Get a wriggle on with what you doing but don't take too long with the details get yourself in line
I've got plans enough for the both of us
Wanna celebrate the little things so are you gonna tell me where it is you want to be in time
I've got plans enough for the both of us

The scent of your hair to the taste on your lips
The scent of your hair to the taste on your lips
All the sordid things you'd like to do
Take the hand that leads you bite the hand that feeds you find
a new
The scent of your hair to the taste on your lips
The scent of your hair to the taste on your lips

It has been such a soft success
Long nights in a soex bed
Because you know that the hotel beds never have the right scent of those home pillow cases freshly pressed
It is the base in life that set the rest
