

Intertwine

Elder Island

One body, two minds
We are cool water
No, nothing can harm us now
We are like water
Just like ice
You were my mirror
But on the other side
You burn, you burn my vice

Trouble, combined
We collide like arrows
Pay no mind
Nothing can harm us now
We just form around
Nothing can harm us now

Changing states
We were once solid
Two individual lines
But now we flow and bind
Shadows move in the waking light
Dancing intertwined
Fold and then combine
As the sun rises

Trouble, combined
We collide like arrows
Pay no mind
Nothing can harm us now
We just form around
Nothing can harm us now

Oh, trouble combined
We collide
Nothing can harm us no
We are like water
One body two
One body two minds

All in all the parts of me
That fit with you eternally
