

# The Big Unknown

Elder Island

Beastly  
Peel the layers back, see me  
Feel you right on track  
Beastly  
Peel the layers back, see me  
Feel you right on track

Take it always slowly, piece by piece  
You got this funny idea that you'll eventually release  
Naming can be costly it'll never be discreet  
You hold it in your dreams because it's easy to believe

Beastly  
Peel the layers back, see me  
Feel you right on track  
Beastly  
Peel the layers back, see me  
Feel you right on track

Fancy enough feel, feel you caught around your sleeve  
Feel you caught up in between  
Feel she's too good to be seen  
Chance it for a nice you feel it something let to please  
Close your eyes towards the seas, while all unravelin' at the seams

Beastly  
Peel the layers back, see me  
Feel you right on track  
Beastly  
Peel the layers back, see me  
Feel you right on track

And if the tricks don't fool enough  
It's only us  
It's only rough  
We didn't sink enough  
We didn't sing enough

And if the pools not smooth  
It's strong  
We'll float along  
Never minding that both of the oars are gone  
We didn't sink enough

Switch and row  
Even with eight hands  
I can't bear this pull alone  
This sinking feeling inside is too heavy a load  
Switch and row  
It's too heavy to hide, it's too heavy a load  
Switch and row  
It', s too heavy to hide and too heavy a load

And if the tricks don't fool enough  
It's only us  
It's only rough  
We didn't sink enough

We didn't sing enough

And if the pools not smooth

It's strong

We'll float along

Never minding that both of the oars are gone

Even with eight hands I can't bear this pull alone

This sinking feeling inside is too heavy a load

We didn't sink enough

We didn't sink enough

We didn't sink enough
