

Body

Elderbrook

Ain't got far to go
Tell me when the lights go out
Tell me when the lights go out
Oh, who we are
But we ain't got far to go

It's taking over my body
You take the pressure off
She said, "Do you want my body?
I just want the feeling of
It taking over my body"

So keep taking over my body

I didn't want nobody
Till you took the pressure off
She said, "Do you want my body
I just want the feeling of
It taking over my body"

So keep taking over my body

Everyone talking
Everyone killing my high
Drinking and laughing
Want to get out of sight
Want to get hypnotized
Blinded by every light
Oh, but my body says
We ain't got far to go

Tell me when the lights go out
It's taking over my body
It's taking over my body
It's taking over my body
Tell me when the lights go out
Tell me when the lights go out
It's taking over my body
It's taking over my body
It's taking over my body
Ain't got far to go

It's taking over my body
You take the pressure off
She said, "Do you want my body?
I just want the feeling of
It taking over my body"

So keep taking over my body
Tell me when the lights go out

I didn't want nobody
Till you took the pressure off
She said, "Do you want my body?
I just want the feeling of
It taking over my body"

So keep taking over my body
Tell me when the lights go out

It's taking over my body
You take the pressure off
She said, "Do you want my body?
I just want the feeling of
It taking over my body"

So keep taking over my body
Tell me when the lights go out

Oh, who we are
