

## Closer

Elderbrook

Never been closer to a love gone right  
Like weight on the border, never been this high  
Like a gold rush, uh, mama  
A single light  
Never been closer to a love gone right

No, I've never been closer, closer, closer  
I'm close  
No, I've never been closer, closer, closer  
I'm close  
You're a real good lover, lover, lover  
I love that I've never been closer, closer, closer  
I'm close

Never seen something as beautiful and good  
You're the place that I run to  
Anytime I want (always shinning)  
Like a silvery angel, you've left me blind  
And I've never been closer to a love gone right

No, I've never been closer, closer, closer  
I'm close  
No, I've never been closer, closer, closer  
I'm close  
You're a real good lover, lover, lover  
I love that I've never been closer, closer, closer  
I'm close  
Oh I've never been closer, closer, closer  
I'm close  
No, I've never been closer, closer, closer  
I'm close  
You're a real good lover, lover, lover  
I love that I've never been closer, closer, closer  
I'm close
