

Next December

Elderbrook

Oh, next December I
Will remember my
Love was here or never at all
Oh, deeper, deeper I will fall
Into the place that I belong
Wear that dress and I'll
Wear my suit and tie
We can dance around the church and spot
I will hold you till the day I die
Let me be the one to cry on

You lie next to me
And I've watched you sleep
Then I'm dreaming while you wear a smile
Whoa, I would walk a hundred miles
Just to tell you something on my mind
When the moon is high
And the river flows
Well, I think of you the way it was
That December when we fell in love
