

## Put It Down

Elderbrook

I put it down in the worst way  
I fuck around but you love me  
I got to believe in something  
Like how the sun'll come shining

'Cause I, I, I put down what I want to  
'Cause I, I, I put down what I want to  
Got me like woah oh oh, I put down what I want to  
'Cause I, I, I put down what I want to

I got a real bad toothache, oh  
From all the shit that I've said  
I swear to god that I'm gonna change  
Do it for myself and dental health again

'Cause I, I, I put down what I want to  
'Cause I, I, I put down what I want to  
Got me like woah oh oh, I put down what I want to  
'Cause I, I, I put down what I want to

Put down what I want  
I put down what I want  
Put down what I want  
I put down what I want  
Put down what I want  
I put down what I want  
Put down what I want

'Cause I, I, I put down what I want to  
'Cause I, I, I put down what I want to  
Got me like woah oh oh, I put down what I want to  
'Cause I, I, I put down what I want to

Now everybody does the same things  
Well I don't wanna sip Kool-Aid  
Well I could be cool if i wanna be, oh  
I put it down and I'm gonna leave
