

Shallow Water

Elderbrook

Is it what you wanted
Did you even try
And I can see you falling
And it's the last time that I turn a blind eye

I can see you're fading (oh)
Like a memory
And I'm tired of waiting
Now it's the last time that I'll let you leave

How deep is shallow water
How high is too high up
I feel it pull me under
Just another touch

How deep is shallow water
How high is too high up
I feel it pull me under
Just another touch (another touch)

(Another touch)
(Another touch)
(Another touch)

How deep is shallow water
How high is too high up
I feel it pull me under
Just another touch (another touch)

Yeah, I got my head down
And I can't see up (no)
And it pulls me under
Can't see the light from the dark I know now

How deep is shallow water
How high is too high up
I feel it pull me under
Just another touch (another touch)

How deep is shallow water
How high is too high up
I feel it pull me under
Just another touch (another touch)

(Oh I, just another touch)
(Oh I, just another touch)
(Another touch)

How deep is shallow water (oh I)
How high is too high up
I feel it pull me under (oh I)
Just another touch (another touch)

Shallow water now, oh I
Shallow water now
Just another touch
Shallow water now, oh I

Shallow water now
Just another touch
