

Take A Minute

Elderbrook

Well, the days keep floating away
Don't you wish that they don't?
Is he trying to fly, when you don't even run?

Oh, oh, oh
Don't you ever waste their time
Oh, oh, oh
It's never easy to rewind
Hey

Take a minute, a minute, you think you should
Keep it going the second you know it's good
Take a minute, a minute, you think you should
Keep it going the second you know it's good

And they pay me better, they do
Or I swear I would run
To the hills, back down and I'll wait
To the place that I'm from

Oh, oh, oh
Don't you ever waste their time
Oh, oh, oh
It's never easy to rewind
Hey

Take a minute, a minute, you think you should
Keep it going the second you know it's good
Take a minute, a minute, you think you should
Keep it going the second you know it's good

Let's, my love
Life gets rough
Let's, my love
Get back up

Let's, my love
When life gets rough
Let's, my love
Get back up

Take a minute, a minute, you think you should
Keep it going the second you know it's good
Take a minute, a minute, you think you should
Keep it going the second you know it's good

Take a minute, a minute, you think you should
(Let's, my love)
Keep it going the second you know it's good
(Life gets rough)
Take a minute, a minute, you think you should
(Let's, my love)
Keep it going the second you know it's good
(Get back up)
(Get back up)
(Get back up)
