

Talk It Over

Elderbrook

We can talk it over anytime you want
We can talk it over till we both can see the sun, and I say
We can talk it over anytime you want
We can talk it over till there's nothing left at all, and I say
We can talk, we can dance
We can move, we can blend
We can talk it over
We can talk, we can dance
We can move, we can blend
We can talk it over

What did I do now?
What did I know, sir?
What did I do now?
End it all, end it all, and I say

We can talk it over anytime you want
We can talk it over till we both can see the sun, and I say
We can talk it over anytime you want
We can talk it over till there's nothing left at all

We can talk it over- ver- ver- ver-
We can talk it over- ver- ver- ver-
We can talk it over- ver- ver- ver-
We can talk it over- ver- ver- ver-
We can talk it over

We can talk it over anytime you want
We can talk it over till we both can see the sun, and I say
We can talk it over anytime you want
We can talk it over till there's nothing left at all

What did I do now? (We can talk, we can dance)
(We can move, we can blend)
What did I know, sir? (We can talk, we can dance)
(We can move, we can blend)
What did I do now?
End it all, end it all, and I say
We can talk it over
