

## Why Do We Shake in the Cold?

Elderbrook

Can't help the way the body moves  
Why do we shake in the cold?  
Naked and stoned  
And how, that every time we choose  
Something has to break in the fall  
And I pay for it all

If only I could tell myself  
At twenty years that someone else was  
Waiting alone  
Well I would've run  
If only I could start again  
I'd pick apart the pieces and  
Assemble them all  
The way that I want

Why do we shake in the cold?

Can't help the way the body moves  
Why do we shake in the cold?  
Naked and stoned  
And how, that every time we choose  
Something has to break in the fall  
And I pay for it all

And I...

Why do we shake in the cold?

So, teach me how to swim  
Before I learn to fly  
Oh, I feel it on my skin  
So hold me till I dry
