Cry

Electrasy

I've cried a million times and it's easy
I've watched a million teardrops fall like rain
I've cried a million times and it's easy to cry again

Don't stop, just leave me now to wash away my pain
I've cried a million times and it's easy to cry again

I've cried a million times and it's easy
I've lost a million lovers all in vain
I've tried a million times and it's easy to cry again

Don't stop, just leave me now to wash away my pain
I've cried a million times and it's easy to cry again

Don't stop, just leave me now, you won't stop the rain
I've cried a million times and it's easy
To cry, to cry, to cry again
To cry again...

That is all the songs from the album "In Here We Fall"
I don't have the other two albums, so I wouldn't be able to giv
e you the words... if I get them, I'll be sure to send them to
you. Farewell
