Demented

Electrasy

If I can find a way to kill you then I will
If I can find a way to spill your blood or knock you over I
Would not hesitate to bury you again
I'll stop you respirating while I put you six feet under
If I could kill you now I would and burn and burn and burn
'cause I'm demented and I'll never learn
If I can find a way to kill you then I will
If I can find a way to fill you in and put you under I
Would not mutilate your acquiescent skin
I'll keep your bones and break them while I put you six feet un
der
If I could kill you now I would and burn and burn and burn
'cause I'm demented and I'll never learn
You can't save me
I'm too crazy
If I could kill you now I would and burn and burn and burn
'cause I'm demented and I'll never learn
I f I could kill you now I would and burn and burn and burn
'cause I'm demented and I'll never learn
Information overload.....
