

Special Forces

Electrasy

You were born with special forces
Looks to kill and a mouth that curses
When it hurts I want to take you down
You were born so I could kiss you
Snort cocaine and lick it off you
All the same I want to take you down
But I dream of someone else, sometimes I hate myself
But I can't change myself, so now you've got me got me got me
I'm not your slave but you treat me like an animal
You keep me tied down and tortured on a chain of love
I'm not your slave but you treat me like an animal
You keep me tied down and tortured on a chain of love
You may be pain but I don't regret you
Often still I can't respect you
All of me just wants to take you down
The devil comes, the force is with you
Consideration has never been you
All the same I want to take you down
But I dream of someone else, sometimes I hate myself
But I can't change myself, so now you've got me got me got me
I'm not your slave but you treat me like an animal
You keep me tied down and tortured on a chain of love
I'm not your slave but you treat me like an animal
You keep me tied down and tortured on a chain of love
Do what you want you've got special forces [6X]
I'm not your slave but you treat me like an animal
You keep me tied down and tortured on a chain of love
I'm not your slave but you treat me like an animal
You keep me tied down and tortured on a chain of love
