

## 1 4 Me

Electric Guest

New girl  
Unlike anyone  
Got me twisted open  
Don't know what's to come

Best, 'cause you  
You got power  
Something special  
Such a high vibration on your level

If I never  
Get to show you  
Am I only  
Hopes that you know it?

You're the one for me  
You're the one for me  
Remember

You're the one for me  
You're the one for me  
Show me how to be  
Together

Ooh, you know I've been over  
And over again up  
And now I'm alive

But if you  
Don't know just what my feeling's multiply  
You know but a night

'Cause all that power  
You perfected  
Thought it never left us and corrected

If I never  
Get to show it  
Am I only  
Hopes that you know it?

You're the one for me  
You're the one for me  
Remember

You're the one for me  
You're the one for me  
Show me how to be  
Together

But you  
I know, I know, I know  
I can't have everything in this life

But you  
You came to my world  
And it's time when I thought

That I'd never make it right  
Show me your life

You're the one for me  
You're the one for me  
Remember

You're the one for me  
You're the one for me  
Show me how to be  
Together
