

## Back for Me

Electric Guest

Watched you drive away; you're back out on the road  
Tried to make L.A. a second place for home  
And I know we've got a thousand ways to go  
And there's not much more I know I can control

Are you coming back for me?  
Hope you're coming back for me

Now you've got the time; remember who you are  
Miles and miles from me, I feel it though you're far  
And I know we've got a thousand ways to be  
But it still won't do until you come for me

Are you coming back for me?  
Hope you're coming back for me  
Coming back for me  
Hope you're coming back for me

I always want you here  
And I'm trying to find a reason, but I only want to hear

Coming back for me  
Hope you're coming back for me  
Coming back for me  
Hope you're coming back for me

For now, I know I'm on my own  
Until the day you call me home  
For now, I know I'm on my own  
Until the day you call me home
