

Dear to Me

Electric Guest

Always underwater
When the night comes down
I can't figure it out
Back to going nowhere

Don't know why you'd want it
Thought that we'd fade out
Sometimes only doubt
Shows you what you wanted

And when it's bad
Feels like I don't know which way I should go
But over time I come back and remember
The one thing that I know

You're dear to me and I know
You're dear to me and I know
When you feel like it's gone away
You're dear to me and I know

Always underwater
When the day runs out
Still you stayed throughout
Over time I saw it

Not like all the others
They're a long way down
Back on open ground
Hopefully you're on it

When it's bad
Feels like I don't know which way I should go
But over time I come back and remember
There's one thing that I know

You're dear to me and I know
You're dear to me and I know
When you feel like it's gone away
You're dear to me and I know
