

Get Out

Electric Guest

You want a refund
But you'll never get one
These typical tongues
How they run, run
My vibe is all sun
Answering to no one
And when the time's up
Then I'm done, done

You found a million reasons why my life
Makes you feel some way
I'm only here for one rotation so

So if you don't like this house, you better get out while you can or I'll lay you on your head!

Get out
This is my last time calling
Get out
Get out

Get out
This is my last time falling
Get out
For you
Get out
This ain't nothing new

They watch it all fall
But they never pick up
They love to sit back when you're stuck, stuck
They play the sidelines
But they'll never mount up
Until the day I've had enough

'Cause it's always only ordinary ones
That feel some type of way
I'm only here for one rotation so
The only thing to say is

Get out
This is my last time calling
Get out
Get out

Get out
This is my last time falling
Get out
Falling through
Get out
This ain't nothing new

Trying to make a hundred from ten
Don't have enough money to spend
Trying to make a hundred from ten
Never going back there again

Get out
This is my last time calling
Get out
Get out
No more for me

Get out
This is my last time falling
Get out
For you
Get out
This ain't nothing new

Just past it
Done with your energy
Done with your energy in my life
No more for me, no more for me
No more for me, no more for me
No more for me
Hey, yeah
This ain't nothing new

Get out
No, no, no, no
Get out
No, no, no, no, no
Get out

Get out
Can't take no more
This is my last time falling
Can't take no more
Can't take no more
For you
This ain't nothing new
