

## Over

Electric Guest

Sun is back again  
After all you did to me  
I thought that it was dead  
Now I know my mind is on my side  
'Cause I forgot most of everything you said  
Only in the end  
One of us has paid the weight

Closer to an answer that I know  
Going backwards for a long time, so I know it's overdue

Over at last  
Only the best

Sun is back again  
Pick me up and hopefully  
A ghost will soon begin

Oh, I know the world to do  
Like everything looks easier  
But always in the end  
Only on the skin  
Even when you paid the weight

Closer to an answer that I know  
Going backwards for a long time, so I know it's overdue

Over at last  
Only the best

You played the part  
Of the bleeding heart  
I hope it makes this fiction easier

Over at last  
Only the best  
Over at last
