

## Help Yourself

Electric Light Orchestra

I thought I could turn things around  
And show you something that was new  
But all I got was disappointment  
I was left without a clue

But you can never change  
You just keep on being you

You got to help yourself (help yourself)  
You got to help yourself (help yourself)  
You got to help yourself

And as the world grows dark beneath the setting sun, I think about you  
And all the plans that we'd begun but never finished, seem to turn and run

But you can never change  
You just keep on being you

You got to help yourself (help yourself)  
You got to help yourself (help yourself)  
You got to help yourself

But you can never change  
You just keep on being you

You got to help yourself (help yourself)  
You got to help yourself (help yourself)  
You got to help yourself

And as the world grows bright beneath the rising sun, I think about you  
And all the things we never did 'cause we forgot, we ever wanted to

But you can never change  
You just keep on being you

You got to help yourself (help yourself)  
You got to help yourself (help yourself)  
You got to help yourself
