

# It Really Doesn't Matter

Electric Light Orchestra

I spent some time across the waves  
I learned a lot of things I never could  
I waved my magic wand over the past  
I never understood

It really doesn't matter at all  
It really doesn't matter at all  
If you found what you're lookin' for  
It really doesn't matter at all

We strolled around on different ground  
There must have been some kind of reason  
Nothing ventured, nothing found  
Must have been the wrong season

It really doesn't matter at all  
It really doesn't matter at all  
If you found what you're lookin' for  
It really doesn't matter at all

I flew you high, I flew you low  
I flew you all the way around  
You played for me your pretty tune  
Now look what I have found

It really doesn't matter at all  
It really doesn't matter at all  
If you found what you're lookin' for  
It really doesn't matter at all

It really doesn't matter at all, doesn't matter at all  
It really doesn't matter at all, doesn't matter at all  
If you found what you're lookin' for, doesn't matter at all  
It really doesn't matter at all
