I was goin' round the world, I was looking for somewhere, I was searchin' for someone, Who was gonna take me there,

Didn't want to do it, 'cos I knew what I'd find, You're really only livin' in a state of mind,

I was thinkin' of the past,
I was tryin' to wrack my brain,
I was looking at the future,
I was trying to play the game,

Didn't want to do it, 'cos I knew what I'd find, You're really only livin' in a state of mind,

Sometimes you get lost; sometimes you get found, In a state of mind, Sometimes you're too high; sometimes you're too down, It's just a state of mind,

Didn't want to do it, 'cos I knew what I'd find, You're really only livin' in a state of mind,

Sometimes you get lost; sometimes you get found, In a state of mind, Sometimes you're too high; sometimes you're too down, It's just a state of mind,

You think you know it all, Then you think that you know nothing, Can't dance; can't crawl, Maybe you better forget it,

Didn't want to do it, 'cos I knew what I'd find, You're really only livin' in a state of mind.
