

Dance With Dark Forces

Electric Six

We were cutting a rug
Staking a claim on drink and drug
I wink, you shrug
I guess my grave's already dug
Stomp on the plug
Won't let you make a mockery of me

But I given up
Too much emotion in my cup
I say "What's up?"
She goes and licks me like a pup
It's not adding up
I was the user, and now you're using me

I can't square that particular circle
'Til you learn to be nicer to me
She got the natty hair and she colored it purple
And tonight we're gonna see

The deck's on fire, and tonight we're going to see us
Doing the dance with dark forces
Taking the chance on trojan horses
Fall into a trance so I can possess your body

Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh

I was working my game
You've got designs to do the same
But do you fill my frame?
I hear you calling out my name
But you assigning blame
Won't let you lay this all on me

We start to rip
I feel you tightening your grip
Then I bite your lip
I start to beg for one more chip
To dip in your dip
I was your taster, but now you're tasting me

Set sheets, now they cover the bed
But warning lights are blinking red
You do the thing that you do
With the flick of your hair
And I know you don't mind being led

You shake your little head
And I know you don't mind being led into
The dance with dark forces
Taking the chance with trojan horses
Fall into a trance so I can possess your body

Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh

Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh

I was driving a thousand miles
My face pressed against the glass
Smoking a delicious slow burner
That was burning out way too fast

And so you've finally come to see
That your soul belongs to me
And that we're dancing up against a ruthless enemy

We play by different rules
In the middle of the night
But if you give it all to me
We'll dance into the light

Doing the dance with dark forces
Taking the chance with trojan horses
Fall into a trance so I can possess your body, yeah

Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh
