

I Got The Box

Electric Six

Open the kimono, too much info
My sick pickle dangling out the window
And every last tussle is now pay-to-play
I like to buy the world some shoes and watch it walk away

All the things I've seen are [?] view
Making it next to impossible to love you

I feel the stares and I don't know why
If you got time to kill, you got a moment to die

I go back down
I got the box
I get in the zone
Right from my box
I'm under the ground
Just like a fox
I go back down
And I got the box, I got the box, I got the box

But it gets you nowhere, a-yeah

And I just don't care, a-yeah
(I'm barely under)
And I can't sit still when everything is on tonight

I'll be swimming in the splashdown
Got this whole end of the city up on lockdown

Black wheels, they can bring you down
Strap you down to the slab with the science of sound

I go back down
I got the box
I get in the zone
Right from my box
I'm under the ground
Just like a fox
I go back down
And I got the box, I got the box, I got the box, I got it

Two minutes push the limits of the sound
Just like a stereo reacharound
It takes fourteen double-A batteries

To take this party where it needs to be
To bring the blockas right down to their knees
Went to the dollar store to sow my seeds
And get some more batteries for the box

I go back down
I got the box
I get in the zone
Right from my box
I'm under the ground
Just like a fox
I go back down

And I got the box, I got the box

I go back down

I got the box

I get in the zone

Right from my box

I'm under the ground

Just like a fox

I go back down

And I got the box, I got the box, I got the box, I got it
