

Mood Is Improving

Electric Six

The diamond in your eye ain't never looked so bright
But your auntie never lets you out her sight

When you see my hook and bite
We roll into Bay Ridge in the cover of night (night)

Keep an eye on your jackets and your bags
Keep an eye on your jackets and your bags
Keep an eye on the blocker when it drags
You with the black Mr Darcy
He ain't in [?] no more
That's what I'm saying blocker

Hey!
You can fantasise this song
The music starts to flow
I need a little bumpity bump
To make us keep moving
Mood is improving, mood is improving, mood is improving
Aha

Goblins, vampyres, coming out to play
They be cutting the vodka with that Ocean Spray
Once I get inside you I do intend to stay
I sing a song for the blockers and the people who've got in my way

One step for Paco and one stop for Jay
One step for everyone I killed, now step away
John Mai keep contacting me [?] attention in a limosine
He got the trouble with the jacket
he ain't got the queen but the kings weren't out in Jersey

Hey!
Nobody wins by pounds
I like it when they box
I starve by the ounce
Will be my undoing
Mood is improving, mood is improving, mood is improving
Aha

You break it then you buy it
That's one of the reasons I kept you around
You fake it then deny it
That's one of the reasons you constantly astound

Ow!

One of these nights I'm going to wake up in the side
I'm going to show you what all these block-a-dillars buy
As you feel me surround you, you might tremble a little bit
'Cos you never felt safe as that the block in all your shit

I'm used to all the conflict, and I'm used to all the hassle
And I'm used to watching you drag your fat ass up to White Castle
It's turvy, it's topsy, and Neptune and Cropsey
We run out of chips for reals blocker

Hey!
Don't drag it up all away
Want to hear the vampyres say
They'll respect the way I play
With no misconstruing
Mood is improving, mood is improving, mood is improving
Aha

Ooh, mood is improving [x5]
