

# Hear The Sirens Scream

Electric Wizard

Dethroned emperors  
Hatred our creed  
Knights of fuzz riding  
On blackened steeds

Hear the sirens scream  
They're calling, calling for me

This doomed sermon  
Praises all who fail  
Black robed disciples  
And angels from hell

We are the night  
We hate the light  
We have no future  
We are the doomed  
Drugs our religion  
Violence our hymn  
Killing for freedom  
Then the sirens scream again

Can you hear them screaming?

The song of the sirens  
Tormenting my mind  
All of our pleasures  
Are now a crime

Can you hear them screaming?  
They're screaming, screaming for me
