

# Mourning Of The Magicians

Electric Wizard

Distorted shadows scream  
As Saturn's children dream  
Faded colours bleed  
I can see you don't believe

So come together  
And feel it now  
Goodbye, farewell  
I'll see you in hell

The hunters now  
Become the hunted  
Here's the darkness  
That you always wanted

Come together  
And feel it now  
Goodbye, farewell  
I'll see you in hell

I'll see you in hell  
I'll see you in hell  
I'll see you in hell  
I'll see you in hell!

The children call to me  
We have the answers that you seek  
I know it's been too long  
But at last, the light has come

Your gods are dragged  
Beneath you and crucified  
Now you have everything  
But everything has died

So come together  
And feel it now  
Goodbye, farewell  
I'll see you in hell

Distorted shadows scream  
As Saturn's children dream  
Faded colours bleed  
I can see you don't believe

So come together  
And feel it now  
Goodbye, farewell  
I'll see you in hell

I'll see you in hell  
I'll see you in hell  
I'll see you in hell  
I'll see you in hell!

The children call to me  
We have the answers that you seek

I know it's been too long  
But at last, the light has come  
As you die
