

Satanic Rites of Drugula

Electric Wizard

Under Saturn's rays I rest in eternal sleep
Dopesmoke violates my tomb and awakens me
Clawing from the grave my batwings spread
Their blood filled with drugs, so high, so dead

Your dope laced blood shows me new highs
Bloodlust, druglust, Count Drugula arise...

Strung out on blood I hunt the streets at night
Terror from the sky in batform I strike
Your naked body dragged back to my darkened crypt
I tie you up, dope you up, then your blood I sip

Drugula...
