

I Need a Freak

Electrocute

In these time of hate and pain
We need a remedy to take us from the pain
Jealousy, a little greed
I've been thinking of what I need
I need a freak to hold me tight
I need a freak everyday and everynight
I need a freak to kiss me right
I need a freak to be my home computer site
I need a freak with curly hair
And when I need this freak I need her to be fair
I need a freak with flying curves
I need a superfreak to calm my nerves
I need a freak with long blonde hair
A superfreak in underwear
I need a freak to treat me right
I need a freak everyday and everynight
I need a freak, exclusively
So that she'll only come to satisfy me
I need a freak, I really do
I want a freak, one that acts and looks like you
I need a freak, hear what i say
I need a freak to get me thru the day
I need a freak to treat me right
I need a freak, everyday and everynight
I need a freak to hold me tight
I need a freak everyday and everynight
I need a freak with curly hair
And when I need this freak I need her to be fair
I need a freak to treat me right
I need a freak, everyday and everynight
I need a freak, I really do
I want a freak, one that acts and looks like you
I need a freak, hear what i say
I need a freak to get me thru the day
I need a freak to treat me right
I need a freak, everyday and everynight
I need a freak, everyday and everynight
I need a freak, everyday and everynight
I need a freak, everyday and everynight
I need a freak, everyday and everynight
