I'm gonna leave you baby so far behind
'Cause you're upset and twisted and you're out of your mind
And you know I don't love you and we're wasting our time
Come on give me a reason, help me make up my mind

There are cold days in this winter
But it's not by my design
I'm a victim of your misfortune
In a terminal decline

'Cause you're fucked up and twisted and you're out of your mind
And you know I don't love you and we're wasting our time
Come on give me a reason, help me make up my mind
Make up my mind

I don't know what lies in the future
I don't know how long it will last
You could lose yourself in the task
My heart is on fire but it's burning low
I can't get much higher, there's no where to go
