

# King For A Day

Electronic

Please let me in 'cause my house is falling down  
There's trouble all over the town  
Let me begin and I'll tell you a story  
How Dracula hunted me down

Show me that you care  
And of my presence you are aware  
We don't need to shout or make a fuss  
We are devout

Well I'd like to make a call to my kid  
And I'd show him all the things that I did  
Well I'd show him all the things that I did  
Show him all the things that I did

Some people always come late  
Others arrive in a dreadful state  
I didn't get there at all  
The gun's in the holster and it's too small

Who's that outside my door?  
The house is falling in, it's world war again  
Who's that outside my door?  
Who's that outside my door?

Well I'd like to make a call to my kid  
And I'd show him all the things that I did  
Well I'd show him all the things that I did  
Show him all the things that I did

Well I'd like to make a call to my kid
