

# Until The End Of Time

Electronic

Not a trace of emotion  
Remains inside  
Two hearts broken  
Lay (set) down by the river side  
Single handed  
They tried to escape from me (you see)  
With a turn of the wheel  
It was driving me  
Crazy...  
This love was born instead of hate  
Celebrate our love  
Let me feel the right vibration  
Celebrate our love  
And until the end of time  
Celebrate what's mine  
Make it good and let it shine  
Celebrate our love  
Revelation or faith  
I just can't decide  
Will they drown  
In the flow (pull) of the rising tide  
There's a side of your life  
That you never see  
It is real this ordeal  
And it's driving me  
Crazy...  
This love was born instead of hate  
Celebrate our love  
Let me feel the right vibration  
Celebrate our love  
And until the end of time  
Celebrate what's mine  
Make it good and let it shine  
Celebrate our love
