

No more us
Going away leaving today
I'm taking back my life
And turning around this body and mind

No more us
Going away, leaving today
I'm packing up my things
And turning around this body of mine
I let you use violently
I'm facing this insanity
'Cos all my care
Is wasting away
It's too hard to bear
There's no more us

No more us
There's no more
Nothing at all
Just dust
There's nothing, nothing at all

You say I'm wrong
It's all I know
That's life
The seed is sown

Don't leave me here
All alone
This time I'll change
Let me atone

I can't find
The person I was
Can't see through this fog
Have I lost my way
Tried for so long
Forgotten my own propriety
You'll see the cracks in my identity
And all my care has wasted away
It's too hard to bear
There's no more us
