

Enemies

Eleine

Blood fills my lungs
A foul taste on my tongue
A shifting of the sands
This madness will not stand

Touch me and you'll die
Challenge your fate, no, I don't mind
I face this with a smile
The truth always survives
I will feel no fear
We are one as we stand
Against our enemies
I know we'll survive
United, we join the fight
Against our enemies
Enemies!

I feel death's touch
As I spit my own blood
My strength, it grows inside
The truth always survives
I will feel no fear
We are one as we stand
Against our enemies
I know we'll survive
United, we join the fight
Against our enemies
Enemies!

I will feel no fear
We are one as we stand
Against our enemies
I know we'll survive
United, we join the fight
Against our enemies
Enemies!
