

Until The End

Eleine

Breathe easy
Rid your heart of fear
As they come closer

Let warm sand touch your skin and hear
My soothing voice say

Remember this face dear
When you stand alone as dust clear

Run t'wards hell
Oh, the life that I gave
Was not in vain

Raise yourself
Oh, the will of the free
Shall remain

Until the end

Breathe easy soon they'll disappear
Don't fear their voices
Until my last breath I hold you near
I made my choices

Don't cry when I'm gone dear
When you stand alone as dust clear

Run t'wards hell
Oh, the life that I gave
Was not in vain

Raise yourself
Oh, the will of the free
Shall remain

Until the end

When warm sand touch my skin I hear
A voice that remains
Burn as you may our cause it will adhere
They're bound by their chains

Remember all words said
When you fell to sand and blood spread

Run t'wards hell
Oh, the life that I gave
Was not in vain

Raise yourself
Oh, the will of the free
Shall remain

Run t'wards hell
Oh, the life that I gave
Was not in vain

Raise yourself
Oh, the will of the free
Shall remain

Until the end
Until the end
