

We Are Legion

Eleine

We have arrived
Through despair we walk once more
Paint your faces
We're going off to war

See...
See our legion
We...
We are legion

As a legion we arise
(Enter hell)
Seeking our enemies
Our spirit soar
We have seen hell before
We have our strength in unity

We fought through flames
Breaking the chains we wore
The tyrants bell shall toll no more

Hear...
Hear our legion
We...
We are legion

As a legion we arise
(Enter hell)
Seeking our enemies
Our spirit soar
We have seen hell before
We have our strength in unity

As a legion we arise
(Enter hell)
Seeking our enemies
Our spirit soar
We have seen hell before
We have our strength in unity

Raise your fist up high
(Up into the sky)
We do not fear our enemy
Let your spirit soar
We've conquered hell before
We have our strength in unity
