

Cool Enough

Elen Levon

Roll up, take a puff
Never ever get enough
Shades on, hays on
Baby are we cool enough?
Face up, make-up
Making all the boys stop
Sweet talk, cherry pop
Oh yeah, this is all we've got.
She's been a bad bad girl now
She wants to try it all out
And there's no stopping her now, now now

I, I, I, I, I wanna lose my mind
Just for this one night
Flying high, 'cause we only got one night
Baby are we cool enough?

Knee socks, pulled up, all the way to the top
Daddy's got credit card, chilling with the green stuff
Get enough time and cuff
Maybe you should take that off
Wasted, fading now everybody's tired up

I, I, I, I, I wanna lose my mind
Just for this one night
Flying high, 'cause we only got one night
Baby are we cool enough?

We've been real real bad now
Though we wanted try it all out
Do we ever stop now?
Baby are we cool enough?
Why should we ever stop?
Oh, we're never gonna stop
Turn down for what, Oh oh

Take me away away
Need my escape escape
Take me away away
Need my escape escape
Baby are we cool enough?
