

Kingdom

Elen Levon

Oh, take back the kingdom
Oh, take back the kingdom

These songs are long overdue
The songs that I sing just for you
Your vacation, my destination
You're my favorite radio station

So don't turn it down until you give it a try
If loving you is a crime then give me 50 to life
It ain't nothing, we've got nothing to hide
I wanna be with you tonight, I wanna be with you tonight

So come by as you are, don't fight the feeling
Can't get between us no matter what
They'll never tear us apart, we're gonna beat them
We'll kick the door down and take back the kingdom

Oh, take back the kingdom
Oh, take back the kingdom

I left the sun in my rear-view
And in the darkness I found truth
I'm gonna face it with no hesitation
A love story made for two

So don't turn it down until you give it a try
If loving you is a crime then give me 50 to life
It ain't nothing, we've got nothing to hide
I wanna be with you tonight, I wanna be with you tonight

So come by as you are, don't fight the feeling
Can't get between us no matter what
They'll never tear us apart, we're gonna beat them
We'll kick the door down and take back the kingdom

Oh, take back the kingdom
Oh, take back the kingdom
Oh, take back the kingdom
Oh, take back the kingdom

Every step that we take, yeah, you can hear us
We'll be storming the gates before the end of the night
Might go saving the world 'cause we are heroes
So all my heroes

Come by as you are, don't fight the feeling
Can't get between us no matter what
They'll never tear us apart, we're gonna beat them
We'll kick the door down and take back the kingdom

Come by as you are, don't fight the feeling
Can't get between us no matter what
They'll never tear us apart, we're gonna beat them
We'll kick the door down and take back the kingdom

Oh, take back the kingdom

Oh, take back the kingdom
Oh, take back the kingdom
Oh, take back the kingdom
