

Before I sleep

Elena Gheorghe

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...

Got that feeling again
'Cause you still haven't call since God knows when
All alone in the dark
I need you by my side when I wake up.
What I want you ??
?? but I know the way that won't change
Maybe later I might
Find you inside my dreams tonight.

Chorus:
Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...
And you were still mine.

I just can't go on
All I want to have gone wrong
Tears fall crime
But they just don't put out the flames
Everything I do
Only seems to remind me of you
Please come back to stay
'Cause you make everything ok.

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...

Tomorrow is just another day
It's so hard to face the future
While you're away...

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine

When we were together...

Before I sleep I say your prayer
Take me back to the love we've shared
Let me find that love divine
When we were together...
And you were still mine.
