

# I love you

Elena Gheorghe

Love me like I'm not living forever  
Hug me like we're not always together  
Kiss me if you think I don't feel better  
When I stay with you

So dance if you believe in me  
Don't sweat too much you see  
I kiss you nice and hot right on your spot  
You live in ecstasy, now tell me what you see  
If you like me

In your heart I will live and die forever  
I will fly with you together, I will have your heart  
No matter what you say or what you do  
I'll always have your, I love you

Spin my world around, bring me the heaven  
Make my dreams come true, learning together  
About the ways of love, let's practice  
No matter what the people are telling you

So dance if you believe in me  
Don't sweat too much you see  
I kiss you nice and hot right on your spot  
You live in ecstasy, now tell me what you see  
If you like me

In your heart I will live and die forever  
I will fly with you together, I will have your heart  
No matter what you say or what you do  
I'll always have your, I love you

In your heart I will live and die forever  
In your heart, In your heart

In your heart I will live and die forever  
I will fly with you together, I will have your heart  
No matter what you say

In your heart I will live and die forever  
I will fly with you together, I will have your heart  
No matter what you say or what you do  
I'll always have your, I love you  
I love you
