

# Incomplete

Elena Gheorghe

Baby where you are, can't you see a line  
got to hear your voice, have to know that love's divine  
you can't hide no more in your mystic lakes  
bring it on the floor, come on let me see your face

Tonight I'm ready, you know I've got to reach my door  
my hands are shaking thinking of that miracle  
the party's starting, come over we just beat up like  
don't break your promise, and be with me tonight.

I'm incomplete but I don't give up  
I will sleep did I get it done,  
I'm incomplete but I'll never fall  
with your love I'm gonna break this walls  
I'm incomplete, ohhh  
I'm incomplete

You can't hide no more, got to be yourself  
does the way it goes, come on from your hiding place  
time is going down, feel my energy  
skip up close and see, you've got a lot to learn from me

Tonight I'm ready, you know I've got to reach my door  
my hands are shaking thinking of that miracle  
the party's starting, come over we just beat up like  
don't break your promise, and be with me tonight.

I'm incomplete but I don't give up  
I will sleep did I get it done  
I'm incomplete but I'll never fall  
with your love I'm gonna break this walls.  
Incomplete, incomplete  
I'm incomplete, ohh  
I'm incomplete.  
I'm incomplete but I don't give up  
I will sleep did I get it done  
I'm incomplete but I'll never fall  
with your love I'm gonna break this walls.
